## Features & Benefits

**Cooking flexibility**  
Accurate, electronically-controlled oven heat, ensures a great result every time with 9 functions and pre-set temperatures including bake, grill, pastry bake with pizza mode and fan forced, for a variety of cooking styles.

**A modern legacy**  
A refined, minimalist style with attention to the smallest details. High-performance cooking technology offers multiple cooking functions.

**Quality and durability**  
Every detail has been carefully crafted. The solid, perfectly balanced soft-close door, machined stainless dials and glowing halo dials all add up to an exceptional, premium range.

**Large capacity oven**  
The generous 3.5 cu.ft total capacity oven gives you plenty of space to cook multiple dishes at once.

**Easy to clean**  
Cleaning up spills is effortless. The flat ceramic cooktop is easily wiped after use, and the self-cleaning oven breaks down food residue at a very high temperature leaving a light ash that's easily removed with a damp cloth.

**Even heat**  
Accurate, electronically-controlled oven heat ensures a great result every time. Dishes on the top shelf turn out as perfectly as the ones on the bottom due to our AeroTech™ convection system that circulates air evenly throughout the entire oven.
