<p>*1 The color of browning varies depending on the type of toast. Adjust the shade control according to the condition of the ingredients.</p> <p>*2 Depending on the different quantity of ingredients, the ingredients may not be sufficiently heated. Reheat according to the condition of the ingredients.</p>					
Cooking using the timer Cooking results may vary. Adjust temperature and time settings to your individual preferences.					
Recipes		Temperature	Time	Note	
Cookies (Refrigerated Dough)		355 °F	10-20 min.	Set the temperature according to the instruction on the food package to avoid burning. No preheat necessary.	
Cinnamon Rolls (Refrigerated Dough)		320 °F	17-22 min.		
Muffins		320 °F	10-15 min.		
* If it takes more than 25 minutes to cook a food item, set the temperature and timer again by watching the result of heating.					

Specifications

Power Supply		120 V ~ 60 Hz
Power consumpt		1300 W
Temperature control (approx.)		250 °F - 460 °F
Timer		0.5 - 25 min
Dimensions (W × D × H) (approx.)	Outer dimensions	33.1 × 30.5 × 26.3 cm (13 × 12 × 10.4 inches)
	Inner dimensions	26.0 × 25.0 × 10.5 cm (10.2 × 9.8 × 4.1 inches)
	Baking pan (inner dimensions)	23.5 × 23.5 × 1.8 cm (9.3 × 9.3 × 0.7 inches)
Mass (approx.)		3.7 kg (8.2 lbs)
Power Cord (approx.)		93 cm (36.6 inches)

- The power consumption is about 0.4 W when the power plug is inserted into the wall outlet without the Power button pressed.
