

Hisense White 24" in 3.1 cu. ft. Front Load Washer with Steam Wash and Wi-Fi Enabled (ConnectLife App)

The Hisense 24" front-load washer, with a 3.1 cu. ft. capacity and 1400 RPM spin speed, combines advanced technology with user-centric design for outstanding cleaning. Steam function ensures hygienic washing and 20-minute Quick Wash adds speed and efficiency without compromising fabric care. The ConnectLife app includes Smart Assist to choose the right settings based on fabric, colour, dirt level and it washes clothes with the perfect combination of temperature, time and water. Smart Link function syncs Hisense washer with dryer and automatically chooses drying cycle. With Pre-Wash fabric-specific cycles, and customizable settings, it offers large capacity and versatility—ideal for busy households.

Wi-Fi Enabled with ConnectLife App – Smart Control

ConnectLife app helps you choose the fabric type, colour, dirt level and any other stain, to deliver the perfectly clean clothes with the right blend of time, temperature, and water. Keeps your wardrobe looking as good as new.

Pure Jet

The Pure Jet system uses high-pressure jets to remove tough stains and gently clean delicate fabrics, while automatically distributing detergent for consistently spotless results—giving you worry-free, precise fabric care.

Smart Link: Washer-to-Dryer Sync

Smart Link intelligently calculates the optimal drying cycle based on the washing cycle and seamlessly communicates this to the Hisense dryer, which automatically chooses drying cycle by itself. Only available when both Hisense washing machine and dryer are connected through the ConnectLife app.

Pre-wash

The pre-wash function tackles tough stains and dirt before the main wash, making the cleaning process more effective. It's gentle on clothes, especially delicate fabrics, helping your clothes last longer.

Washing Cycle Options

Hisense washer includes 19 built-in cycles to handle everyday loads giving you the flexibility you need for laundry. With 6 temperature and spin speed settings, plus adjustable soil levels and extra rinse options, you can fine-tune each cycle for optimal cleaning and fabric care.

Steam Wash

The high-temperature steam fully penetrates the clothes, eliminating bacteria attached to them, thus protecting fabrics and extending their lifespan.

Quick Wash

You can choose a 20-minute cycle which is perfectly suited for 5 lb of laundry. Designed for your busy life and personalized needs.

Large Capacity

With a spacious 3.1 cu. ft. capacity, this Hisense washer lets you handle bigger loads in fewer cycles—saving you time and effort, so you can get back to what matters most.

Pause & Add

Easily add clothes mid-cycle by just pressing "Start/Pause" to toss in that forgotten sock or T-shirt. No need to wait 2–3 minutes as is the case with traditional washers; it's quick and effortless. This function operates only when the water level and temperature are safe for the user.

Stackable Design

The easy-to-install stacking kit comes with the dryer and ensures your washer and dryer are securely positioned, reducing wobbling or imbalance. It's a practical, space-saving solution that frees up floor space—ideal for apartments, condos, or smaller laundry areas.

Additional Cycles (Downloadable)

By connecting to ConnectLife, the machine offers more customizable options than the physical panel, giving you greater control and a smarter, more personalized laundry experience.
