- Personalize your sound with the Sony | Sound Connect app.³
- Tap your earbuds to play, pause, adjust volume, and switch modes.
- Made with recycled plastics and zero plastic packaging.^{4,5}

Features

Part of you. Open to life.

Enjoy all-day comfort and seamless sound with LinkBuds Clip. Stay aware of your surroundings with the open ear design, switch between three listening modes with a tap, and experience crystal-clear calls powered by AI voice pickup. Balanced audio and up to 37 hours of battery life keep you connected wherever life takes you.¹

Ergonomic round silhouette

The rounded, ergonomic design ensures a natural, secure fit for lasting comfort.

Hear life and listen on

Carry your sound everywhere with open ear listening. Stay in touch with your environment and in tune with your tracks.

Switch between three listening modes

Tap to choose a listening mode that suits your surroundings: Standard for every day, Voice Boost for noisy places, and Sound Leakage Reduction for quiet environments.

Life-like sound. Crystal clear calls.

Enjoy clean, balanced audio for music and podcasts, plus clear calls with advanced voice pickup technology that isolates and enhances your voice wherever you are.

Wear it all day. Feel nothing but comfort.

Feather-light comfort paired with Air Fitting Cushions for a personalized fit you can wear all day.

Essentials for everyday listening

Enjoy up to 37 hours of listening (up to 9 hours with the earbuds + up to 28 hours with the case) and a quick 3-minute charge for up to an extra hour of play.¹ With Bluetooth connection, multipoint pairing⁶ and IPX4 water resistance,² you're ready for wherever the day takes you.

Hear your world, your music

Talk to a barista, catch a transit announcement, or nod along to a podcast—all without removing your earbuds. The open ear design blends your surroundings with clear audio, so you stay aware and connected.

Three listening modes

From quiet offices to busy streets, set your sound for the moment.

Standard Mode

Balanced, natural sound for everyday listening.

Voice Boost Mode

Lifts speech and vocals in noisy places, so calls and podcasts come through clearly.

Sound Leakage Reduction Mode

Reduces the sound that escapes your earbuds to others while keeping your playback comfortably audible.

Lightweight and secure

Barely there but always with you. The LinkBuds Clip are comfortable and stable whether you're working, walking, or on the move.

Blends in like an accessory

Smooth, cuff-like silhouette feels and looks like a stylish accessory.

Suppresses sound leakage

The housing design works with Sound Leakage Reduction technology to keep audio private while maintaining an open, low-pressure fit. This gives you a more personal listening experience, while the fit stays open, comfortable and considerate of your surroundings.

Effortlessly sleek

The LinkBuds Clip earbuds are curved and sleek, paired with a soft-block case in a variety of shades making them recognizable at quick glance.

Great for your everyday look

Choose from four colors, lavender, greige, green, and black,¹³ to complement your unique style—perfect for any occasion. Personalize your case by mixing and matching different color pieces—snap on a fresh look whenever you want.¹³

Customize your case cover

Personalize your case cover by picking your favourite colours from a range of combinations, for a one-of-a-kind look for your LinkBuds Clip.¹⁵

Life-like sound

Enjoy natural vocals and a balanced mix of bass, mids, and treble for clear, comfortable listening.

Make your music more natural

Digital Sound Enhancement (DSEE™) restores high-frequency details lost in compression, delivering sound closer to the original recording.⁷

Your voice comes through clearly

Precise Voice Pickup Technology and dual microphones work with AI-based signal processing to isolate your speech to deliver clear calls wherever you are.

Detects speech vibrations to enhance clarity

Bone conduction sensor captures your voice vibrations, filtering out ambient noise and background sounds. Experience exceptionally clear voice transmission that focuses purely on what you're saying, not what's around you.

Call clarity, elevated by AI

Developed with AI machine learning and over 500 million voice samples, this technology enables clearer speech in a wide range of environments.

Tune it your way

Every day has its own rhythm. Use the 10-band equalizer in the Sony | Sound Connect app to match the vocals, deepen the bass, or save your signature mix for when the mood hits.³

Certified headphones for a personalized experience

With 360 Reality Audio certified headphones and our Sony | Sound Connect app you can optimize your experience by analyzing your individual ear shapes and enjoy the ultimate immersive music experience.⁸

An advanced personal optimization algorithm gives an even greater sense of sound space, distance and height, allowing you to become even more immersed in the music.³

A personal cinematic experience with BRAVIA TVs⁸

Enjoy a thrilling Dolby Atmos[®] experience and 360 Spatial Sound that adapts to your ears with BRAVIA[®] TVs and these headphones, no matter where you are in the room.⁸

360 Spatial Sound Personalizer

With the Sony | 360 Spatial Sound Personalizer app, you can enjoy a sound experience that's optimized for you. The app captures and analyzes your ear shape, allowing these headphones to create your own personal spatial sound field when paired with BRAVIA XR TVs.⁹

All-day power, up to 37 hours

Get up to 37 hours of total playtime (up to 9 hours with the earbuds, plus up to 28 hrs in the case). And when you're short on time, a quick 3-minute charge gives you up to an hour of extra listening.¹

Splashes and sweat, no problem

With an IPX4 water resistance rating, that means splashes and sweat won't stop these earbuds—so you can keep on moving to the music.²

Multipoint Connection

Multipoint connection allows the LinkBuds Clip earbuds to be paired with two Bluetooth(R) devices simultaneously.⁶ So, if you're listening to music on one device, and a call comes in on another, your music is automatically paused, and the call is switched from the other device. Your music then automatically resumes once the call is complete.

What's in the box

Open the packaging of your LinkBuds Clip and you'll find Air Fitting Cushions perfect for supplying additional comfort for longer wear.

*Charging cable sold sep.

Stable, reliable Bluetooth connectivity

A Bluetooth chip that transmits sound to both ears simultaneously, combined with an optimized antenna design, delivers a stable connection and exceptional audio quality.⁶ Plus, low audio latency keeps your viewing experience perfectly in sync.

Total convenience, total customization

LinkBuds Clip earbuds are even better with the Sony | Sound Connect app.³ The simple, intuitive interface lets you dial in your ideal sound and shortcut settings and can keep track of your recent listening history.

Find your earbuds with Fast Pair

In one tap, the LinkBuds Clip earbuds enable effortless Bluetooth pairing with your Android[™] devices.⁶ You can even check to see where you last placed it.

Easy pairing with your computer

Swift Pair makes it quick and easy to pair your earbuds with your Windows 11 or Windows 10 laptop, desktop PC, or tablet. Pop-up pairing guidance appears on nearby Windows 11 or Windows 10 devices when pairing mode is selected.⁶

One earbud, ideal for multitasking

If you want to listen to your music while still being able to have a conversation, remove one earbud from the charging case and use as normal.¹⁰

Easy controls. Enrich your listening.

Tap your earbuds to play/pause, adjust volume, and switch between listening modes.

Set up and use tap control

Enjoy a comfortable listening experience with intuitive tap controls. You can adjust the tap sensitivity using the Sony | Sound

Connect app.³

Quick Access

Access your music with just a few taps—no need to touch your smartphone. Enjoy your favorite tracks effortlessly.³

Volume that adapts to your surroundings

Adaptive Volume Control automatically adjusts sound levels to suit your surroundings, ensuring comfortable listening anywhere—from quiet rooms to busy streets.¹⁴

Talk it out with Google Gemini

Get hands-free help and have a natural, free-flowing conversation about anything you need to know on-the-go. Listen to music, connect with friends, get notifications and more when connected to your smartphone.¹¹

Scene-based listening

Provides a sound experience tailored to you by sensing your current surroundings and movement such as walking, running, or working out at the gym.

Play music automatically

With Wear Play and your headphones, music starts automatically when you put them on—no phone or app needed. Activity and location, like walking, running, or being at the office, are detected automatically. You'll also get important reminders, such as appointments and traffic, keeping you connected to life and entertainment.¹²

Seamless sounds. Pure joy.

Switch playback between your LinkBuds Clip and LinkBuds Speaker seamlessly with Auto Switch. Simply place your earbuds back in their case when you're near the speaker and playback will continue on the speaker. Then switch back when you take your earbuds out again for on-the-go listening.^{6,14}

Aiming to achieve a zero environmental footprint

Sony is committed to preserving the Earth, accelerating green initiatives, and achieving a zero environmental footprint by 2050.

Recycled plastic materials

LinkBuds Clip uses recycled plastic materials in both the earbuds and the charging case.^{4,5}

No plastic in individual packaging

No plastic is included in the packaging material for LinkBuds Clip, reflecting our commitment to reducing the environmental impact of our products.⁵

Accessibility

We believe technology should make the world more interactive, more creative, more inclusive, and more accessible. The LinkBuds Clip is designed with features that make every step easier for everyone. The packaging uses high-contrast printing for clearer visibility, plus embossed details and a partial cutout that help you quickly find the QR code for the start-up guide. An easy-open package and an easy-open charging case help to remove unnecessary friction from unboxing to everyday use.

Specification

Battery	
Chemistry of Embedded Battery	Lithium-ion (Li-ion), Lithium-ion (Li-ion)

- 1x charging with charging case is needed. Up to 9 hrs (earbuds) + up to 28 hrs (charging case), total of up to 37 hrs when Bluetooth connection. Actual performance varies based on settings, environmental conditions, storage, and usage. Batteries are consumable products and their capacity degrades over time as they age. Sony does not guarantee the life span of the battery.
- Protection assured against water splashes from any angle, excluding the sound tube (sound outlet) of the headphones. The charging case is not water resistant.
- Download app at Google Play and the App Store. Network services, content, and operating system and software subject to terms and conditions and may be changed, interrupted or discontinued at any time and may require fees, registration and credit card information. Some services may not be available in certain countries/regions.
- Recycled plastic is used in multiple parts of the earbuds body and the case, which is subject to change.
- Depending on geographical region. Coating and adhesive materials excluded.
- Interoperability and compatibility among Bluetooth® devices vary.
- Activate DSEE from the Sony | Sound Connect app.
- Download Sony | Sound Connect app at Google Play and the App Store. Network services, content, and operating system and software subject to terms and conditions and may be changed, interrupted or discontinued at any time and may require fees, registration and credit card information. Some services may not be available in certain countries/regions. 360Reality Audio requires subscription to compatible online music service and third party terms, conditions, account and fees may apply.
- Sony | 360 Spatial Sound Personalizer is an app that personalizes your sound experience when connected to a BRAVIA TV.
- Depending on how the earbuds are used, the remaining battery life of the left and right earbuds may differ. Additionally, the available operations may vary depending on the ear the headset is worn on.
- Google Gemini headphones features are only available when connected to a supported Android™ device. Google, Android, and Gemini are trademarks of Google LLC. Google Gemini is currently available in selected countries/regions. Install the Google app and set up with Sony | Sound Connect app.
- Set up with Sony | Sound Connect app. Terms and conditions for available partner services and their contents, as well as related software (including operating systems) apply. The contents of this application are subject to change without notice, and this application may be updated or terminated without notice. Install the compatible app and set up with Sony | Sound Connect app. The compatible service may not be available in some countries/regions. Supported apps and services: <https://www.sony.net/supported-servicelink>
- Colors of product and accessories vary. Product availability varies by retailer and/or region.
- This feature will be available after the software update in March 2026.
- LinkBuds Clip wireless headphones and Case Covers are sold separately. Timing of release and sales channels vary by region.
