Hi-QLED Mini-LED AI TV 144Hz – Fire TV

Step into immersive entertainment with the Hisense U68SF AI TV. Mini-LED and Hi-QLED technologies deliver vivid colours, sharp contrast, and incredible detail. Native 144Hz Game Mode, VRR, AMD FreeSync Premium, and Auto Low Latency Mode ensure ultra-smooth, responsive gameplay. Full Array Local Dimming enhances black levels and brightness for a true-to-life picture, perfect for sports, movies, and gaming.

MiniLED

Smaller LED's allow for more of them to be incorporated into our back-light technology. This leads to the delivery of superior brightness, richer colours, and sharper details compared to conventional LED TVs.

Native 144Hz Game Mode

Serious gamers wanted! With a winning combination of technology, 144Hz Game Mode is the one to beat. A variable refresh rate from 48Hz to 144Hz ensures that your console and PC gaming will meet any opponent head on. AMD FreeSync™ Premium Pro and Auto Low Latency Mode virtually eliminate screen tearing and controller input lag. Dominate the game—it's time to level up!

Hi-QLED

Hi-QLED technology reproduces a wide spectrum of colours, resulting in more vivid and authentic, true-to-life images.

Full Array Local Dimming

Equipped with dimming zones combined with state-of-the-art video processing, the results deliver a striking contrast with intense black levels and vibrant colour reproduction.

144Hz Refresh Rate

Whether it's sports, action movies or pure gaming, this high frame rate greatly reduces motion blur to reproduce a clearer picture.

Dolby Atmos (2.1 Channel with built-in Subwoofer)

Elevate your auditory experience with Dolby Atmos, an award-winning audio technology that reveals details you've never noticed before. Take your movie nights and gaming sessions to the next level with a 2.1 channel system featuring two main speakers and a built-in subwoofer.

Hisense AI TV

Hisense Hi-View AI Engine processor enhances every frame with advanced scene recognition, optimizing skin tones, graphics, and contrast for lifelike visuals. It also intelligently enhances sound and energy efficiency for a truly immersive experience.

Total HDR Solution

Hisense TVs have taken the sensible approach to HDR with support for all major formats, including Dolby Vision, HDR10, HDR10+, and HLG. Never worry about subpar video quality or compatibility again.
