Hi-QLED Mini-LED AI TV 144Hz - Fire TV

The QD8SF AI TV series brings Mini-LED technology to everyone, combining it with Hi-QLED for vivid, true-to-life colours, delivering stunning detail and vibrant contrast. It features Native 144Hz Game Mode, along with Variable Refresh Rate (VRR) and Auto Low Latency Mode (ALLM). Plus, with support for all major HDR formats including Dolby Vision, every scene is optimized to look its best.

Mini-LED

Smaller LED's allow for more of them to be incorporated into our back-light technology. This leads to the delivery of superior brightness, richer colours, and sharper details compared to conventional LED TVs.

Glare-Free

This advanced screen technology on Hisense TVs reduces distracting reflections from sunny windows and bright lamps, minimizing glare and delivering clear, vibrant viewing in any lighting condition.

QLED Hi-QLED

Hi-QLED technology reproduces a wide spectrum of colours, resulting in more vivid and authentic, true-to-life images.

Total HDR Solution

Hisense TVs have taken the sensible approach to HDR with support for all major formats, including Dolby Vision, HDR10, HDR10+, and HLG. Never worry about subpar video quality or compatibility again.

Hisense AI TV

Hisense Hi-View AI Engine processor enhances every frame with advanced scene recognition, optimizing skin tones, graphics, and contrast for lifelike visuals. It also intelligently enhances sound and energy efficiency for a truly immersive experience.

Full Array Local Dimming

Equipped with dimming zones combined with state-of-the-art video processing, the results deliver a striking contrast with intense black levels and vibrant colour reproduction.

Native 144Hz Game Mode

Serious gamers wanted! With a winning combination of technology, 144Hz Game Mode is the one to beat. A variable refresh rate from 48Hz to 144Hz ensures that your console and PC gaming will meet any opponent head on. AMD FreeSync™ Premium Pro and Auto Low Latency Mode virtually eliminate screen tearing and controller input lag. Dominate the game—it's time to level up!

Dolby Atmos Sound

(2.1 Channel with built-in Subwoofer)

Elevate your auditory experience with Dolby Atmos, an award-winning audio enhancement that reveals details you've never noticed before. Take your movie nights and gaming sessions to the next level with a 2.1.2 channel system, featuring two main speakers, two surround channels, and a built-in subwoofer.
