RGB MiniLED AI TV 180Hz–Google TV

Experience the next generation of TV technology with the Hisense UR8SG. As the origin of RGB MiniLED, Hisense delivers up to 100% BT.2020 colour coverage for purer colours, deeper contrast, and exceptional brightness. Enjoy ultra-smooth 180Hz motion for clearer sports, action, and gaming, reduced reflections with the Obsidian Anti-Reflection Panel, and personalized entertainment through Google TV—all designed to elevate everyday viewing.

RGB MiniLED

Mini-LED Hisense, the origin of RGB MiniLED, the next generation of TV display technology, uses independent red, green and blue LEDs to precisely control colour and brightness. This delivers purer colours, deeper contrast, and higher brightness than conventional MiniLED TVs that rely on white or blue LEDs.

100% BT.2020 Colour Coverage

Hisense RGB MiniLED technology achieves up to 100% BT.2020 colour coverage, an advanced TV colour standard that enables a much wider range of vivid and lifelike colours in every scene, all without the need for Quantum Dot film.

180Hz Refresh Rate

Whether it's sports, action movies or pure gaming, this high frame rate greatly reduces motion blur to reproduce a clearer picture.

Obsidian Panel Anti-Reflection

Delivers up to 3× deeper blacks and higher contrast, so you can enjoy clearer details even in bright daylight. The Obsidian Panel reduces reflections to just 1.5–1.8% by absorbing ambient light.

Hisense AI TV

Hisense Hi-View AI Engine PRO processor enhances every frame with advanced scene recognition, optimizing skin tones, graphics, and contrast for lifelike visuals. It also intelligently enhances sound and energy efficiency for a truly immersive experience.

Native 180Hz Game Mode

Serious gamers wanted! With a winning combination of technology, 180Hz Game Mode is the one to beat. A variable refresh rate from 48Hz to 180Hz ensures that your console and PC gaming will meet any opponent head on. AMD FreeSync™ Premium Pro and Auto Low Latency Mode virtually eliminate screen tearing and controller input lag. Dominate the game – it's time to level up!

The Origin of RGB MiniLED

Hisense ChromaMagic Technology redefines visual excellence with stunning colour and brightness, earning recognition from world-renowned innovation awards.

The 3 Pillars of Hisense RGB MiniLED

Hisense RGB MiniLED delivers natural, true-to-life colour with independently controlled RGB LEDs, as defined by the CTA (Consumer Technology Association), enhancing eye comfort, improving energy efficiency, and redefining premium TV performance.
