KEY FEATURES

180° SWIVEL

Convenient Loading and Unloading
The 180° degree rotating base provides an ergonomic swivel that makes it easier than ever to load and unload the child from the carrier while the seat is installed in the vehicle.

LIGHTWEIGHT DESIGN, ADVANCED SAFETY

Only 9 lb for easy handling
With its lightweight design, the Aton G2 Swivel is one of the easiest carriers to install and carry, without compromising on safety.

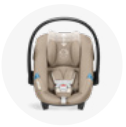

SENSORSAFE TECHNOLOGY

Provides real-time safety alerts
Peace of mind delivered directly to your phone, the integrated Bluetooth-enabled chest clip sends mobile app alerts if the chest clip becomes unbuckled, if the back seat becomes too warm or too cold, and if the child is unintentionally left alone.

EASY GLIDE RECLINE

Ensures proper recline angle
In-base recline allows you to adjust the recline angle for a proper fit without having to re-install the base.

11-POSITION HEIGHT-ADJUSTABLE HEADREST WITH NO-RETHREAD HARNESS

A customized fit for your growing child
Choose between 11 headrest positions to keep your growing child snug and safe. The integrated harness adjusts automatically with the headrest for the perfect fit.

AIR VENTILATION

Optimal Breathability
No matter the season, your child can remain comfortable in the seat, thanks to all-around air ventilation with the perforated shell and mesh fabrics.

EASY-IN BUCKLE PAD

Ultimate portability
Keeps the harness buckle pointing forward, making it easier to sit your child in the seat and buckle them up.

EXTRA EASE GETTING YOUR CHILD INTO THE CAR SEAT

Seamlessly connects to your CYBEX stroller
Creating a flexible and convenient travel system designed for life’s journeys on the move.

OVERSIZED SUN PROTECTION

Adjustable, oversized UPF50+ canopy provides full sun protection, keeping your little one cool and shielded from the sun’s rays.

LINEAR SIDE-IMPACT PROTECTION

Disperses crash forces away from the child
Integrated directly into the seat’s energy absorbing shell, the innovative Linear Side-impact Protection System (L.S.P.) effectively reduces crash forces on the child in the event of a side-impact collision.

GREENGUARD GOLD CERTIFIED

Ensures lower chemical emissions; contributes to healthier air quality around your child
Helps ensure the air you and your family breathe is cleaner and healthier by meeting the world’s most rigorous standards for low VOC emissions.

ATON G2 SWIVEL

KEY MESSAGE

Delivers 180 degrees of rotation along with maximum convenience and safety without compromising on design

PRODUCT LONG TEXT

The CYBEX Aton G2 Swivel redefines convenience with its 180° rotating base, making it effortless to load and unload your child. Advanced safety features, including an Anti-Rebound base with Load Leg and Linear Side-Impact Protection, work in harmony to significantly reduce collision forces on your child. Designed to be lightweight and ergonomic, it also boasts an adjustable headrest, no-rethread harness, air ventilation, and a SafeLock belt tensioner for a quick and secure installation. Experience unparalleled safety and ease with the Aton G2 Swivel.

PRODUCT SHORT TEXT

The CYBEX Aton G2 Swivel delivers 180° of rotation, offering maximum convenience paired with unparalleled safety. The swivel base allows you to rotate the seat towards you, making it easier than ever to load and unload the child from the carrier while the seat is installed in the vehicle.
