KEY FEATURES

PROMOTES RELAXED POSTURE REDUCING ORGAN COMPRESSION

Ergonomic Recline

Prioritize your baby's comfort and support during every outing. Whether attached to your stroller or when carrying your little one outside the vehicle, the Cloud G Pro offers a 45% flatter recline to promote a natural, ergonomic posture. Simply adjust to recline the backrest and extend the leg rest for a near-flat recline, ensuring your baby stays properly supported throughout your walk.

REDUCES CRASH FORCES BY UP TO 30%*

Anti-Rebound Base with Load Leg

The Cloud G Pro base combines an anti-rebound bar with a load leg to absorb energy and reduce crash forces on the child by up to 30% (as compared to the same car seat without this feature).

INSTALLATION IN SECONDS

One-Click Rigid LATCH Install

Ensure a secure and reliable install in just seconds with the One-Click Rigid LATCH system. Designed for ease of use, this feature provides a tight fit with minimal effort—so you can feel confident that your seat is properly installed every time.

SIDE & FRONT-IMPACT SAFETY STANDARDS

Complies with the latest FMVSS 213B side and frontal-impact safety standards, rigorously tested to ensure reliable protection and peace of mind in the event of a collision.

GROWS WITH YOUR CHILD

12-Position Height-Adjustable Headrest

The 12-position height-adjustable headrest with integrated harness, ensures a proper and snug harness fit for your child as they grow.

LINEAR SIDE-IMPACT PROTECTION

Disperses crash forces away from the child

Working in combination with the Energy-Absorbing Shell, the Linear Side-impact Protection System (L.S.P.) effectively reduces crash forces on the child in the event of a side-impact collision.

GREENGUARD GOLD CERTIFIED

Lower chemical emissions

Helps ensure the air you and your family breathe is cleaner and healthier by meeting the world's most rigorous standards for low VOC emissions.

SENSORSAFE TECHNOLOGY

Provides real-time safety alerts

Delivering peace of mind, our SensorSafe Bluetooth- enabled chest clip sends mobile app alerts if the chest clip becomes unbuckled, if the back seat becomes too warm or too cold, and if the driver unintentionally leaves the child behind. It also notifies emergency contacts if no action is taken, sharing your location.

CLOUD G PRO

FEATURES

AIR VENTILATION

Optimal Breathability
A perforated shell and mesh fabrics allow for all -around air ventilation that keeps your child comfortable in varying temperatures.

OVERSIZED SUN PROTECTION

Composed of UPF50+ fabric for optimal sun protection
Adjustable, oversized UPF50+ canopy protects and provides shade for full sun protection.

FIRE-RETARDANT CHEMICAL-FREE FABRIC

Passes federal safety standards without the use of added fire-retardant chemicals
CYBEX car seats are made with naturally flame-resistant materials, free from additional FR-chemicals.

TRAVEL SYSTEM COMPATIBLE

Seamless transition from car to stroller
Effortlessly connect your Cloud G Pro to any CYBEX stroller transforming it into an innovative travel system with ergonomic recline that delivers ultimate convenience and comfort.

EASY-IN BUCKLE PAD

Extra ease getting your child into the car seat
Keeps the harness buckle pointing forward, making it easier to place your child in the seat and properly secure them.

EUROPEAN BELT PATH

Built for secure, on-the-go installations without a base
Provides a safe, tight install using just a seatbelt, so you're ready for taxis, travel, and quick trips.

REMOVABLE INFANT INSERT

Provides proper fit for newborns 4-11 lbs
From your baby's first trip, a removable infant insert ensures even the smallest of babies experience a proper and secure fit.

FAA-COMPLIANT

For aircraft use without the base
This child restraint system meets Federal Aviation Administration (FAA) standards, allowing safe and secure use on an aircraft without the need for a base, ensuring convenience and safety during air travel.

EASY TO CLEAN

Machine washable seat fabrics
The seat fabrics are designed for easy maintenance, allowing for convenient machine washing to keep the car seat fresh and clean with minimal effort.

KEY MESSAGE

Recline in Comfort, Ride in Safety

PRODUCT TEXT

The CYBEX Cloud G Pro Infant Car Seat delivers advanced safety and comfort from your baby's first ride. Its ergonomic design provides 45% more recline* to reduce organ compression, facilitate natural breathing, and promote a relaxed posture whether on the stroller or outside the vehicle. The Anti-Rebound Base with load leg helps absorb energy and reduces crash forces and SensorSafe™ technology adds another layer of protection by keeping you connected to your baby's well-being. Rigid LATCH installation takes just seconds, giving you ease and confidence every time you travel. With Cloud G Pro, safety and comfort come standard, so every journey feels secure and stress-free.

SHORT TEXT

CYBEX Cloud G Pro Infant Car Seat delivers 45% more recline* when used outside the vehicle to reduce organ compression, facilitate natural breathing, and promote a relaxed posture. Includes an anti-rebound base with load leg to reduce crash forces. With integrated rigid LATCH installs in seconds for a secure, easy-to-use car seat for every ride.
